SHOCKLINE
about your transfer paper

Ghost White Toner and how it works

Ghost White Toner is different from other solutions in the market. Learn how it works:

White is the new black

When using the Ghost White Toner Cartridge it is installed instead of the black cartridge in the printer. Everything on the screen in black will be printed in white.

Ghost

Fabulous on hard surfaces

Greeting cards, Arts & Crafts

Create stunning textile.

True White, True Colors, True Blacks

Ghost White Toner does not create a composite black from CMY. We use the a real Black Toner Cartridge. This means that you have to do two pass printing if you need black in your design.

For T-Shirt printing you will print your Colors and blacks first and then a white background. The offset of most printers is 0.5mm - just make your white layer a little smaller to avoid a strange halo.

P.S. Film – EasyWeed

Plotter cut flex material, with a soft and very thin finish, available in a wide range of colours.

Its peculiar composition allows the overlaying of P.S. Film directly on P.S. Film, or of Stripflock on P.S. Film, so offering an endless blend of colours and effects.

Vibrant colours, easiness of use, one-step application, hot or cold peeling, reliability in colour fastness and washing resistance up to **80°C** are the main features making the P.S. line one of the most favourite products currently available on the market.

The logo for Zekrayat, featuring the word "Zekrayat" in a bold, orange, sans-serif font with a registered trademark symbol. The logo is set against a background of various white line-art icons on a light gray surface, including a trophy, a cushion, a backpack, a mug, a cigarette holder, a keychain, a box, and a bag. The background is split into a dark blue upper half and a light gray lower half.
